

THE DENNINGTON SAFETY HARNESS UNIVERSAL HARNESS - MODEL U110

**The only fall protection harness
that allows you to tie off at
waist height on an aerial
lift and remain in
Federal compliance**

**ALSO PERFECT FOR
USE IN WAREHOUSE
AND MAINTENANCE
APPLICATIONS**

**This harness is the basic unit
needed for most people who
don't have the need to carry
any tools or equipment.
This harness guarantees
durability with a lightweight feel
but with a hidden toughness**

**Close up of the Dennington
shock-absorbing system**
